Landscaping (Horticulture)

Dundee and Angus College

Venues

Kingsway Campus

Content

This course is aimed at applicants who wish to develop skills in hard and soft landscaping, including plant propagation, garden design, weed and pest control, health and safety and hard landscape construction.

The course is largely practical, with some academic study required to build a basic understanding of techniques and the theory behind the subject. Essential Skills units are included to aid in employability.

Students may be able to complete PA1 and PA6 spraying certificates and Emergency First Aid. Please note that students will incur additional costs for these certificates.

Start Date

August

Qualification

SVQ

Study Method

Full time
