39

Age Limit

16-19

Proposed Start Date

August 2017

Locations

Glasgow

Number of Posts

1

Qualifications Achieved

Duration

3 years

Summary

During the apprenticeship, successful candidates will attend college to study towards a certificate in Electrical Power Engineering. You will also work towards an onsite Level 2 Diploma in a specific occupation such as electrical Joiner. This is combined with technical training, which will be carried out at our training centre.

Career Progression

On successful completion of the Scottish Power Apprenticeship Programme, it's likely that you'll be offered a role in Scotland, England or Wales.

Entry Qualifications

Maths and a science subject at least to National 5 plus English at National 4.

Personal Skills

You'll also need to be a highly-motivated team player with a positive attitude and willingness to learn. You should also be a good problem solver and confident decision maker.
