

Healthcare Support

Provider

NHS Greater Glasgow and Clyde (NHSGGC)

Career Areas

Health and Medicine

Job Description

The duties will change regularly depending on what work and projects are required within the service.

This job includes daily contact with patients, who require ongoing support while in Hospital, to be able to live their lives. This also requires daily contact with other members of our team and also ward staff.

Initially on admission patients are usually unwell and can be distressed. It is very rewarding to be able to support patients through these stressful periods and then work with them to enable them to return home. This includes patient being independent with tasks that they may have struggled with previously.

You will be delegated appropriate tasks by the Physiotherapists and Occupational Therapists.

You will assist those professionals working under their supervision and guidance in undertaking clinical and non-clinical tasks. Our team also supports other therapy teams within the North Sector.

The post is physically demanding and also works to tight timescales/deadlines therefore the need to complete the tasks within these deadlines is essential to supporting patient care.

Your duties will include, but are not limited to some or all of the following:

- exercise programmes
- mobility practice
- working with patients to improve their ability to carry out day to day tasks i.e washing, dressing, meal preparation, getting in and out of bed, stair practice

- accompanying therapists when taking patients out for a short trial within their own home
- equipment ordering
- equipment delivery
- checking equipment within patients home
- keep patient records up to date
- administration duties
- housekeeping.

<p>The first year of this post is based in the Occupational Therapy and Physiotherapy Departments at Stobhill Hospital and the second year at Glasgow Royal Infirmary.</p>
