2 3 4 5 uestions I want to as	sk	3 4		
2 3 4 5 uestions I want to as 1 2	sk	3 4		

## **EXAMPLE QUESTIONS**

It's easy to get tongue tied at events, no matter how confident you are.

Here are some suggestions of questions you might want to ask.

- Do you recruit all year round or at a specific time of year?
- How do you select the best person for the apprenticeship/job?
- Do you offer work experience placements for young people?
- How do you train new employees?
- What skills and qualities do you look for when you recruit?
- What's the best route into this type of career?
- Why did you decide to become a (job title)?
- Why did you join the (NHS, Army or Police)?
- What was your first year as a (student/apprentice/job title) like?

If you do your research on the companies attending the event, you will probably come up with more specific questions of your own.

Once you have completed this activity and saved it to your device, remember to upload it to your <u>Planit portfolio</u> in the JSS Evidence section.
