

# Activity 1 Using social media to look for work

Practise finding companies and recruitment information on the following social media channels and make a note of what you searched for, what you found and which social media channels you found most useful.

## Facebook

|                                                             |  |
|-------------------------------------------------------------|--|
| Search terms used                                           |  |
| Recruitment information found                               |  |
| Reasons you would or wouldn't use this social media channel |  |

## X

|                                                             |  |
|-------------------------------------------------------------|--|
| Search terms used                                           |  |
| Recruitment information found                               |  |
| Reasons you would or wouldn't use this social media channel |  |

## LinkedIn

|                                                             |  |
|-------------------------------------------------------------|--|
| Search terms used                                           |  |
| Recruitment information found                               |  |
| Reasons you would or wouldn't use this social media channel |  |

## Instagram

|                                                             |  |
|-------------------------------------------------------------|--|
| Search terms used                                           |  |
| Recruitment information found                               |  |
| Reasons you would or wouldn't use this social media channel |  |

## YouTube

|                                                             |  |
|-------------------------------------------------------------|--|
| Search terms used                                           |  |
| Recruitment information found                               |  |
| Reasons you would or wouldn't use this social media channel |  |

Once you have completed this activity and saved it to your device, remember to upload it to your [Planit portfolio](#) in the JSS Evidence section.
