Module 7 - Matching your skills to a job

Module 7 shows you how to identify the skills required for a particular job, by becoming familiar with reading job adverts, job descriptions and person specifications. You can also practice matching your own skills and strengths to those required for a job.

Work your way through the Matching your skills to a job Module, completing the activities.

Teacher/Trainer Notes

If you are a teacher or trainer delivering this module to young people, you can use the **PowerPoint presentation**, which includes notes, activities, tasks/discussion points and estimated timings. There are also **teacher/trainer notes**, which outlines delivery requirements, aims, outcomes, career management skills and senior phase criteria.

If you are completing this as a paper-based exercise, print out Activity 1 Worksheet and Activity 2 Worksheet as well as the content before delivering it.
