

Autism and Learning

University of Aberdeen

Venues

Old Aberdeen Campus

Content

The Postgraduate Certificate in Autism and Learning aims to give practitioners an in-depth understanding of the condition and an insight into the workings of the autistic mind. It will equip participants with practical approaches and interventions that will enable children, young people and adults on the autism spectrum access to learning, participate actively, experience success, gain independence, and fulfil their potential.

Compulsory Courses:

Autism, Inclusion and Participation (ED50HP); Autism, Behaviour and Planning for Change (ED55HQ)

Start Date

September
