

Soil Science

University of Aberdeen

Venues

Old Aberdeen Campus

Content

The University of Aberdeen has been producing high quality Soil Science graduates for over 60 years, with world leading researchers, renowned consultants and senior government staff amongst our alumni. You will receive intensive training in soil and environmental sciences, with a large focus on field and laboratory based teaching. The department maintains expertise in all core areas of soil science (biology, chemistry, physics and pedology), so you can be assured of teaching by experts in the field. The final component of the MSc is a research project, conducted under the supervision of either departmental staff or institutions and agencies with whom we have close links.

Start Date

September

Qualification

Postgraduate Master's

Study Method

Full time

Award Title

MRes/MSc

Course Length

12 months

Faculty

Life Sciences and Medicine

Department

Biological Sciences

Entry Requirements

MRes

A UK 2:1 honours degree (or international equivalent), in a biological, environmental or physical science, geography, or other

relevant subject is required.

MSc
A UK 2:1 honours degree (or international equivalent), in a biological, environmental or physical science, geography, or other relevant subject; applicants with a 2ii (or equivalent), particularly with some relevant experience, may also be considered. We also consider individuals with degrees in a wider range of disciplines who are clearly motivated by the programme and have some relevant experience.
