Criminology and Psychology

Open University in Scotland

Content

Criminology and psychology help make sense of crime, criminalisation, criminals and victims. This qualification will provide you with a critical understanding of these subjects. As your understanding develops, you'll question to your own beliefs about crime and harm. You'll look beyond criminal acts and human motivations to examine the social conditions in which crime occurs, the exercise of power in response to crimes, the nature of conflicts when people interact (individually, in groups and as nations) and how and why societies determine what they will and won't tolerate.
