

Skills for Work: Rural Skills (National 4)

Scotland's Rural College (SRUC)

Venues

Oatridge Campus

Content

The Skills for Work: Rural Skills course offers the opportunity to explore the work involved in the land-based industries.

It is an ideal route for people who are out of work and would like to potentially access land-based employment such as landscaping, conservation or horticulture.

A range of topics will be covered during the course including employability skills for the land-based industries, an introduction to state maintenance, land-based industries, crop production and soft landscaping.
