Television Production (NextGen)

New College Lanarkshire

Venues

Coatbridge Campus

Content

This course will build on the skills and knowledge developed in the HNC. Using our industry standard facilities, software, cameras and hardware you will learn more advanced techniques in camera, lighting, editing and sound before applying this knowledge in the production of various programmes and creative projects. Throughout the year you will build a showreel of work which you can use to seek employment or to progress to further study.

Units include:
Documentary research; Advanced video editing; Advanced post production; Media management; Short film; Music video production.
