

Logistics and Supply Chain Management

University of the West of Scotland

Venues

Paisley Campus

Content

The MSc Logistics and Supply Chain Management course provides you the opportunity to study all aspects of logistics and supply chain management, covering the range of activities associated with the efficient flow and storage of goods, services and related information. It equips you with the specialist knowledge and training to design and manage effective logistics and supply chain systems, creating managerial opportunities in the public and private sectors.

You can exit after 120 credits with PgDip Logistics and Supply Chain Management.

Start Date

September, January

Qualification

Postgraduate Master's

Study Method

Part time (day)

Award Title

MSc

Course Length

3 years

Faculty

School of Business and Creative Industries

Department

Business

Entry Requirements

If you are studying for the Postgraduate Diploma then you should normally possess an Ordinary degree, or equivalent, and have obtained an average mark of 50% or more across your final year taught modules.

If you are an MSc applicant then you require an Honours degree or equivalent. The first degree should be from a related subject discipline such as:

Engineering; Maths; Economics; Business studies; Geography; Planning; Social studies.

A background of professional experience will also be considered. If you are a Diploma student and satisfy the progression requirements you will then be eligible to pursue the MSc.
