

Advanced Security and Cybercrime (Executive)

Edinburgh Napier University

Venues

Merchiston Campus

Content

This course is focused on the fast-developing areas of networking and cybersecurity, and allows a full-time employee to graduate with an MSc in 18 months.

The course awards significant credit for the application of course-derived knowledge to your employer's systems or procedures.

Additionally you study modules designed to enhance your current skills using flexible learning material and practical activities which can be completed online or remotely. Finally, a dissertation project is undertaken which further strengthens your cybersecurity skillset.

Modules include:

Advanced Cloud and Network Forensics; Advanced Professional Practice; Computer Penetration Testing; Host-Based Forensics; Leadership, Learning and Development; Management of Software Projects; Network Security; Security Audit & Compliance; e-Security.
