

Climate Justice

Glasgow Caledonian University

Content

The MSc Climate Justice explores the principles that underpin climate justice; human rights, development and climate change. The programme is tailored to provide a practical angle to climate justice to allow students to graduate with a Masters which provides them with skills, approaches and methodologies for addressing climate justice in their future work plans.

Modules include:

Resources and Sustainability; Climate Change and Carbon Management; Climate Justice; Human Rights, Gender and Development; Environmental Ethics and Climate Change; Climate Change, Adaptation and Mitigation; Water, Justice and Public Health; Renewable Energy Technologies; Master's Dissertation/Project.
