

## Forensic Investigation (3rd year entry)

Glasgow Caledonian University

### Content

Forensic Investigators produce evidence that can be used in a court of law. This course will equip you with the knowledge and hands-on experience of scientific methods for the investigation and solving of crimes.

Glasgow Caledonian has recently invested more than £1.5 million to create state-of-the-art chemistry and biology laboratories where you'll gain invaluable practical experience in using modern instruments, such as a DNA analyser, ultra powerful microscopes and mass spectrometers.

This course provides you with a firm grasp of the theoretical and practical aspects of the chemical and biological sciences, with forensic staff consultancy casework discussed throughout. You'll have the opportunity to spend up to a year at one of our partner institutions in Europe or the USA.

#### Year 1

Chemistry, Human Biology, Physics, Maths and Stats, Scots Law, and Introduction to Forensic Investigation.

#### Year 2

Physical Chemistry, Chemical Analysis, Civil and Criminal Procedure, Organic Chemistry 1, Inorganic Chemistry, Cells and Biomolecules.

#### Year 3

Instrumental Analytical Chemistry, Incident Prevention, Investigation and Analysis, Organic Chemistry 2, Forensic Analysis, Chemical Data Analysis and Management.

#### Year 4

Environmental Forensic Analysis, Forensic Microscopy, Advanced Forensic Biology, Advanced Techniques in Forensic Science, Project.

### Start Date

September

### Qualification

Degree

### Study Method

Full time

### Award Title

BSc Hons

## UCAS Code

F410

## Course Length

2 years

## Faculty

School of Computing, Engineering and Built Environment

## Department

Applied Science

## Entry Requirements

2027 entry requirements:

Relevant HND

## SCQF Level

10

## Progression Routes
