Quantity Surveying

Glasgow Caledonian University

Content

Quantity Surveyors require a wide range of skills and knowledge covering the financial, legal, managerial, economic and communicative aspects of a project from inception to completion.

This course is accredited by the Royal Institution of Chartered Surveyors (RICS) and the Chartered Institute of Building (CIOB). These accreditations provide graduates access to RICS and CIOB membership via the graduate routes. All second-year full-time students have the opportunity to spend one week in Europe as part of their studies.

A 24-week industrial placement is incorporated into Year 3 of the programme. The industry placement allows students to understand the application of their taught skills and benefit from work-based learning. Full-time students in Year 3 also take part in an "Interact" design project, working as a team with students from the Glasgow School of Art, the University of Glasgow and the University of the West of Scotland to develop a network of contacts and solve a specific design problem.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

BSc Hons

UCAS Code

K240

Course Length

4 years

Faculty
