Software Development

Glasgow Caledonian University

Content

Software professional roles are currently among the fastest-growing in the ICT sector. This has led to an increased demand for employable and productive software engineering graduates. This course provides a specialised route for students who wish to become technical experts in the field of software development.

The BSc (Hons) Software Development course equips you with a specific understanding of the theories, concepts, processes, methods and tools used for software development, and their application to the development of solutions that have real value.

You'll gain in-depth technical knowledge, understanding and the skills needed to become an effective software development professional capable of working in highly technical roles.
