Content

With the expansion of PC based LANs into the office, there is increasing demand for professionals who possess a broad knowledge of PC-LAN technologies and the ability to integrate them into a seamless network. The BSc course in Computer Networking covers computing and electronic technology during the first two Years, before specialising in computer network design and management in Year 3. The course will provide you with the fundamental knowledge to design, configure and implement a network, with particular emphasis on the integration of software and hardware components to enable efficient operation of the network.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

BSc Hons

UCAS Code

H601

Course Length

4 years

Faculty

School of Computing, Engineering and Physical Science

Department

Computing

Entry Requirements

2023 entry requirements

Standard entry:

4 Highers at ABBB plus English and Maths at National 5.

Entry to year 2 is possible with 3 Advanced Highers at CCC including Computing Science plus English and Maths at National 5.

Widening access entry:

4 Highers at BBBB plus English and Maths at National 5.

SCQF Level

10
