

Engineering Management (4th year entry)

University of the West of Scotland

Venues

Lanarkshire Campus

Content

The BEng Engineering Management will set you up for a career in a continuous improvement, planning, supervisory or project management role in engineering environments. You will develop your technological problem solving skills and your organisational, planning and management abilities, providing you with the knowledge to successfully oversee complex engineering projects from start to finish.

This course specialises in Project Management and continuous improvement methodologies, such as Lean and Six Sigma, within an Engineering context, and Yellow Belt and Green Belt Lean Six Sigma courses accredited by the Institute of Six Sigma Professionals (ISSP) are available throughout your BEng Engineering Management studies.
