### Content

The programme aims to equip students with the necessary skills and expertise to realise their full creative potential and to pursue a career in the visual arts or other chosen professions. Each year is designed to ensure that it builds upon the previous year in terms of content, skill development and individual research.

Students are provided with a sound knowledge of the theory and practice of their subject before developing personal study paths and self-motivated programmes of work in the final year. Staff will help students to acquire the theoretical and practical skills needed as a practising artist and all students will be exposed to a wide range of views from both staff and visiting artists.
