

Biomedical Science

Glasgow Caledonian University

Content

Designed for working scientists, the MSc Biomedical Science is the only one of its kind in the city of Glasgow. This part-time programme enables biomedical scientists currently employed in NHS pathology service labs to attain greater expertise and advance to the next stage of their careers.

This programme is accredited by the Institute of Biomedical Science (IBMS). Through this programme, hospital laboratory employees can progress through Agenda for Change bandings and fulfil the required qualifications to become a Chartered Scientist (CSci).

Pathobiology A, B and C; Quality and Laboratory Management; Preparation for Project; Research Methods for Biomedical Science; Specialist Portfolio and Research Project.

Start Date

January
