

Radiotherapy and Oncology

Glasgow Caledonian University

Content

Therapeutic radiographers are highly skilled caring professionals who have an essential role in the treatment of patients with cancer. They deliver radiotherapy treatment using state-of-the-art equipment.

Radiotherapy radiographers work as part of the health care team and are involved in decisions about radiotherapy patient management. They provide care and support to patients and their families throughout the cancer journey.

GCU is the largest provider of therapeutic radiography education in Scotland. The teaching team work closely with practice colleagues in the NHS and with their professional body to ensure the programme is relevant and up-to-date.
