

Physiotherapy

Glasgow Caledonian University

Content

Learn in state-of-the-art facilities, study the latest in clinical research and get leading-edge training in our MSc Physiotherapy programme. GCU collaborates with industry to bring a cutting-edge course of study to physiotherapists seeking to advance their careers. The programme is delivered by practising experts, specialists and academics – and informed by the latest developments in the field.

Drawing on our close relationship with industry, your programme includes a wide range of teaching methods to help you advance in your career – including problem-solving activities, case studies, practice-based learning, peer support and blended learning using GCULearn, our high-tech virtual environment.

You will study: Advancing Practice (1 and 2); Evaluating Evidence to Develop Research and Inform Practice; Advanced Leadership for Health and Social Care Practitioners; and Dissertation.
