

Nursing Studies (Adult)

Glasgow Caledonian University

Content

Adult nursing is a dynamic, rewarding and highly skilled caring and compassionate career. You will develop diverse skills ranging from the delivery of health education for individuals from a wide variety of backgrounds to delivering complex care for people with multiple acute or long term conditions.

This programme aims to develop nurses who are able to deliver person-centred, safe and effective care, working with other professions and agencies in an ever-changing and complex healthcare environment.

Year 1

Values and Rights based Nursing practice, Health Improvement, Contemporary Health Care Delivery, Introduction to Evidence Based Practice.

Year 2

Anticipatory and Alternative Approaches to Adult Nursing, Developing Skills for Professional Nursing Practice (Adult).

Year 3

Adult Nursing to Empower, Enable and Enhance Person-Centred Care, Consolidating Professional Skills for Nursing Practice (Adult).

Year 4

Honours level dissertation, Leadership in Interprofessional teams, Advancing the Application of Values Based Nursing Practice in Health and Social Care.
