

Nursing (Mental Health)

University of Stirling

Venues

Stirling Campus

Content

You'll study alongside Adult Nursing students to gain an understanding of how health and social care professionals work together to bring about the best in patient-centred care.

Each year meets the Nursing and Midwifery Council (NMC) requirement of 50% theory and 50% practice. You'll be introduced to the fundamentals of nursing, and then progress to specialist areas of mental health nursing such as therapeutic skills, recovery and leadership skills.
