

Theory of Podiatric Surgery

Queen Margaret University

Content

Are you an established podiatrist looking to develop your career into the flourishing field of podiatric surgery? This innovative course will give you the theoretical knowledge and expert guidance that you need. You can study the MSc part-time, to fit in with your current work commitments.

The last 20 years have seen a rapid increase in podiatrists choosing to pursue post-registration training in the field of podiatry surgery. This course was specifically developed to give students the knowledge and skills they need to pursue this flourishing career path. Other interested healthcare professionals can also complete individual modules. We deliver this MSc jointly with Glasgow Caledonian University (GCU).

You could begin this modular course as a podiatrist in either the NHS or in private practice, and be looking to develop your career into the area of podiatric surgery. The course will give you the ideal opportunity to extend your scope of practice to include surgical management of foot and ankle pathologies.

You will study a variety of modules, giving you the theoretical underpinning for future surgical training.

You can exit at PgDip level.

Start Date

September, January

Qualification

Postgraduate Master's

Study Method

Distance and Flexible learning
Part time (day)
