

Aquatic Pathobiology

University of Stirling

Venues

Stirling Campus

Content

The Aquatic Pathobiology postgraduate degree gives you a unique opportunity to study the prevention, diagnosis and treatment of aquatic animal diseases in cultured organisms. You'll study at the Institute of Aquaculture, one of the top institutions in this field. The Institute is internationally recognised for both research and teaching and has more than 70 staff and 80 postgraduate students. This Masters in Aquatic Pathobiology has been taught at the Institute for almost 40 years and is the only postgraduate degree of its kind in the world.

The course combines high-quality, practical work and field visits with class-based training in aquatic disease diagnosis and health management challenges drawn from real situations. You'll also develop an understanding of the biology, husbandry and environment of farmed aquatic species.

You can exit after 9 months with PgDip Aquatic Pathobiology.

You can exit after 6 months with PgCert Aquatic Pathobiology.
