

## Biology

University of Stirling

### Venues

Stirling Campus

### Content

During Semesters 1-4 you'll take core modules in Cell Biology, Physiology, Genes and Evolution, Ecology and Biodiversity. You'll learn practical skills in Natural Sciences and Quantitative Techniques and do a field course for ecology and identification skills. Additionally, you can select from modules offered in Ecosystem, Environmental and Aquatic Sciences.

During Semesters 5 – 6 you'll take a core module in Plant Ecology and Physiology and you'll also take five modules from a range of options in animal and human biology.

In Semesters 7-8, our range of specialist half-modules allows you to specialise in an area of biology that particularly interests you. You'll undertake an independent research project and study between four or six advanced modules from a range of options.

### Start Date

September

### Qualification

Degree

### Study Method

Full time

### Award Title

BSc Hons

### UCAS Code

C100

### Course Length

4 years

### Department

Natural Sciences

## Entry Requirements

2026 entry requirements:

4 Highers at ABBB including one from Maths, Biology, Chemistry or Physics.

For entry to the 3 year honours degree course, you would need 3 Advanced Highers at ABB including Biology and one from Chemistry, Geography or Physics.

## SCQF Level

10
