

Ethical Hacking

Abertay University

Content

Demand for qualified ethical hackers and cyber security specialists is rising year on year. Study our Ethical Hacking degree and discover the fascinating field of cybersecurity.

How do hackers get into corporate security systems? How do they 'steal' computer data? Can you build the right defences and stop hackers in their tracks? Find out how on this Ethical Hacking degree course.

The course combines computer networking, digital forensics and expert development as well as programming. You will learn how to protect data and information systems. This Ethical Hacking degree gives you a deep understanding of cybercrime so you have the skills to stop hackers - fast.

This course is accredited by the BCS, the Chartered Institute for IT.

Start Date

September

Qualification

Degree
