

Computing

Abertay University

Content

Explore systems architecture, programming design, coding, platform technologies, software engineering and other areas of computer science on this fast-paced and wide-ranging degree that prepares you for a rewarding career in the computing industry.

In an industry where new hardware, software and production technologies are emerging at breakneck speed, computing experts with the ability to apply creativity to existing and future problem areas are in high demand.

This practical programme focuses on software development for mobile, desktop and web platforms, with emphasis on constructing effective, efficient, robust, and maintainable solutions.

Start Date

September

Qualification

Degree

Study Method

Full time

Award Title

BSc Hons

UCAS Code

G400

Course Length

4 years

Faculty

School of Design and Informatics

Department

Games Technology and Mathematics

Entry Requirements

2024 entry requirements

Standard entry: 4 Highers at ABBB including 1 from Maths, Computing Science, Biology (or Human Biology), Chemistry, Engineering Science, Environmental Science, Geography or Physics plus Maths at National 5.

Widening access entry: 3 Highers at ABB including 1 from Maths, Biology (or Human Biology), Chemistry, Computing Science, Engineering Science, Environmental Science, Geography or Physics plus Maths at National 5.

For entry to second year, you must have the above plus 3 Advanced Highers at ABB including Computing Science and one from Maths, Biology, Chemistry, Design and Manufacture, Engineering Science or Physics.

SCQF Level

10
