

Human Biology (Higher)

Fife College

Venues

Dunfermline (Halbeath) Campus

Content

The study of Higher in Human Biology focuses upon those aspects of biological science which are of relevance to the human species and the influence of human kind on the biological world. It contributes to your general and vocational education through the acquisition of relevant biological knowledge and skills and provides a general basis for further study or employment in areas related to biology. It also contributes to the development of the more general attitudes and abilities related to the processes of science.
