Natural Sciences

Open University in Scotland

Content

Tackling today's complex societal challenges requires an interdisciplinary approach. This BSc (Honours) Natural Sciences degree, accredited by the Society for Natural Sciences, prepares you to meet that need by exploring a wide range of scientific disciplines. You'll begin with a broad introduction to modern science, building a strong foundation across key areas. As you progress, you can maintain a broad-based approach or specialise in a single field. Practical experience is supported through our OpenSTEM Labs, which enable online experiments, while some modules also offer optional hands-on laboratory work and fieldwork to deepen your scientific understanding.

The course has routes accredited by the Society for Natural Sciences, the Royal Society of Biology and the Istitute of Physics.

Start Date

October, February

Qualification

Degree

Study Method

Online learning

Award Title

BSc Hons

Science

Entry Requirements

There are no formal qualifications required to study this degree. Computer and internet access required.

If you're new to study or to the OU, it is recommended that you start with a course at Level 1.

SCQF Level

10

SCQF Points

«SCQFPoints»

Progression Routes

Science graduates are well placed to enter a range of both scientific and non-scientific jobs. The study of science develops good analytical and numerical skills, and students also become proficient in using computers.
