

## Natural Sciences

Open University in Scotland

### Content

Study a specific science or pick and choose from different scientific disciplines. Many challenges facing society today involve a cross-disciplinary approach. So this degree, exploring a range of sciences, is perfect for the modern age. Start with a wide-ranging introduction to highly topical areas of modern science. This will give you a good grounding in each of the branches of science. You can continue with a broad-based approach or focus on a single area of science. Our OpenSTEM Labs mean you do some of the practical work online. Some modules also give you the opportunity to do hands-on lab work and fieldwork.

### Start Date

October, February

### Qualification

Degree

### Study Method

Distance and Flexible learning

### Award Title

BSc Hons

### Course Length

Flexible

### Faculty

General

### Department

Science

### Entry Requirements

Open entry. Computer and internet access required.

If you're new to study or to the OU, we recommend that you start with a course at Level 1.

### SCQF Level

10

## SCQF Points

«SCQFPoints»

## Progression Routes

Science graduates are well placed to enter a range of both scientific and non-scientific jobs. The study of science develops good analytical and numerical skills, and students also become proficient in using computers.
