

Site Carpentry (City and Guilds) Diploma

Ayrshire College

Venues

Ayr Campus

Content

This course will really get you work-ready, giving you the skills and knowledge you need for an apprenticeship in site carpentry. By now, you'll already be pretty good, but you're going to get even better, learning highly skilled techniques.

You'll develop the full range of skills needed for constructing a house or commercial building from top to bottom, and everything else in between.

You will: learn about different types of roofing structures and how to construct a traditional 'cut' roof; learn how to lay floor joists, create hatches and fix different joist coverings; develop skills in fixing and fitting stairs, mouldings, encasements and kitchens; learn to install all types of doors; explore how to organise, plan and price jobs.

Start Date

August

Qualification

Other

Study Method

Full time
