Psychology with French (Sciences)

University of Aberdeen

Venues

Old Aberdeen Campus

Content

Do you get motivated by the way people 'tick?' Do you notice difference? What is normal behaviour? If you think about these questions a lot you may be interested in studying Psychology. Psychology is the science of mental process and behaviour. It is used in many contexts such as health, sports, social behaviour and how we process and act on information. You can study it with the French Language to give you a unique range of learning and opportunities and careers.

French & Francophone Studies at Aberdeen has a long-standing reputation for teaching and research. The programme explores the diversity of French and Francophone culture and the complex global influence of France and the French language over the centuries. You will add to your growing language skills with diverse courses in contemporary society and politics, philosophy and history, film and visual culture, advanced translation skills, and literature from the Renaissance to the present day.
