

# Electrical Engineering

West Lothian College

## Content

This course is for anyone wanting to pursue a career in engineering at technician or engineer level. The course offers students the chance to study engineering subjects from various disciplines, and to explore environmental issues including renewable energy.

The course includes:

Electrical engineering; Mechanical engineering; Complete system engineering; Health and safety; Renewable energy system engineering.

## Start Date

August

## Qualification

HNC

## Study Method

Full time

## Course Length

1 year

## Department

Engineering

## Entry Requirements

Higher Maths or Physics, or 2 other relevant Highers, or relevant Foundation Apprenticeship, or relevant national qualifications at SCQF Level 6. Entry by interview and presentation.

## SCQF Level

7

## SCQF Points

«SCQFPoints»

## Progression Routes

Employment in electrical engineering field or progression to university. Those progressing on to university can work in design, research and development and the management of electrical systems.

## Combination Courses

«htmlCombinationCourse»

«htmlCombinationUCASCode»

## Address

Almondvale Crescent  
Livingston  
West Lothian  
EH54 7EP
