Content

The MSc Banking and Finance course is suitable for everyone, whether you already have related qualifications or experience, or want to change the direction of your career. The course helps you progress towards recognised professional qualifications that are accredited by the Chartered Banker Institute, making this course one of the few UK programmes to offer this level of recognition.

As the world moves away from physical cash, replaced by cryptocurrencies, and physical banking is replaced by online banking and finance, our course focuses upon how technology and digital infrastructure is changing the way banks do business. You will learn how FinTech is changing bank management and finance, and how cryptocurrencies will change the way banking and finance operates.

You will acquire the analytical skills and the critical knowledge in this changing environment which will enable you to further your career in the new digital banking and financial sector. The course offers you practical business led knowledge and you can expect to see leading banking and finance experts from the sector in the classroom offering you the most contemporary industry thinking.

You can exit at the end of 6 months with a PgCert Digital Banking and Finance.

You can exit at the end of 9 months with a PgDip Digital Banking and Finance.
