

## Finance (Combined)

University of Strathclyde

### Content

This finance degree is unique in Scotland in terms of the range and depth of issues covered.

Subjects include the principles of investment and value, business finance and decision-making and the analysis of securities such as bonds and shares.

An undergraduate degree in finance will give you the skills for a career in financial services such as banking, investment management, pension fund management and insurance.

#### Year 1

Introduction to the basic principles of investment and value, valuation of bonds and shares, investment decisions in business companies and accounting methods.

#### Year 2

Topics include domestic and international financial decision-making and policies in business, risk and return and pricing of company shares and the efficiency of financial markets; develop an understanding of financial statements, the banking system, and statistical and econometric methods.

#### Year 3

Classes build on Year 2 and cover advanced issues in corporate finance, the banking system, and risk management, using for instance derivatives to help companies manage exchange rate risk.

#### Year 4

You can specialise in Finance as a Single Honours subject and write your research dissertation in Finance; alternatively you can continue with a Joint Honours degree in Finance and your other principal subject, and write a dissertation in either Finance or your other subject.
