

# **Business Analysis and Technology**

University of Strathclyde

#### **Content**

Year 1: introduction to key areas in business technology, managerial and operational issues in conjunction with analytical tools to support associated decision-making.

Years 2 and 3: further develop expertise in modelling and analysis to support problem-solving and decisionmaking; learn the fundamentals of operations management and how information systems are used to enhance key business processes.

Year 4: carry out a major project for an industry or university client; you take a core class which focuses on

analysis and technology in practice and choose from optional classes such as Contemporary Business Technology,
Business Analytics Using Data Mining, Project Management, Risk Analysis and Management.
