Content

This course offers a supportive environment for learners with additional support needs, enabling them to continue their studies, adapt to their new surroundings, and explore opportunities across the college.

This is a great opportunity for young people who require support with their learning to consider their next steps and prepare for further education and future employment. The course timetable includes essential skills, career management skills, health and well-being, and enterprise. Learners can also participate in various vocational subjects offered at the college.

Start Date

September

Qualification

Other

Study Method

Full time

Course Length

1 year
