Dumfries Campus

### Content

This course is perfect if you want to work, are unsure what work would be suitable for you and you would like some support to help you to get that job.

We aim to provide you with a programme of study which develops not only your confidence, practical and physical skills for life, but has a strong focus on enabling you to develop skills for employability, independent/supported living, self-advocacy, working with others and citizenship.

During the programme you will develop competitive, transferable and marketable job skills. The programme will offer you the opportunity to develop increased independence and self-esteem.

This programme aims to provide you with opportunities to obtain internships working with a host employer to develop work ready skills with the opportunity to apply for employment at the end of the programme. You will also have the opportunity to achieve employability awards and essential skills certification.
