

Engineering Academy - Mechanical Engineering

Glasgow Kelvin College

Venues

Springburn Campus

Content

You will study towards an enhanced HNC in Mechanical Engineering.

The course includes the classical, well-established subject areas associated with mechanical engineering.

Examples include:

Engineering Mathematics; Materials Science; Solid Mechanics; Thermodynamics; Fluid Mechanics; Fluid Power; Computer Aided Design.

As stated, this course is in conjunction with The University of Strathclyde.

Campus location may be subject to change.

Start Date

August

Qualification

Other

Study Method

Full time

Course Length

1 year

Department

Engineering

Entry Requirements

4 Highers including Maths and Physics at B

SCQF Level

Progression Routes

Degree Courses.

Address

123 Flemington Street
Glasgow
Glasgow City
G21 4TD
