

Human Resource Management

University of Strathclyde

Content

This is a two-year, part-time programme intended for human resource professionals, or line managers with people management or devolved HR responsibilities as part of their role.

Part-time study allows you to learn new skills while continuing to stay in employment and earn a salary. The knowledge and skills gained through your studies can be implemented immediately into the workplace, providing benefits to both you and your employer.

Studying over two years means the pace of study helps you retain a good work-life balance. Teaching is arranged so that you only need to commit to classes one day a week, from 1-7pm.

The aim of this course is to develop an advanced level of knowledge and understanding related to the human resource management function in organisations.

You can exit at the end of 12 months with PgDip Human Resource Management.
