

Advanced Mechanical Engineering with Aerospace

University of Strathclyde

Content

This course is accredited by the Institution of Mechanical Engineers (IMechE) and provides a route for you to achieve Chartered Engineer status.

It has been developed to provide high-calibre mechanical engineering graduates with an in-depth technical understanding of advanced mechanical engineering topics together with generic skills that will allow them to contribute effectively post-graduation.

The course helps you to become a specialist in the area of aerospace. You'll also have the opportunity to take modules in general skills such as project management and risk analysis. These are necessary skills for any professional aerospace engineer.

Start Date

September, January

Qualification

Postgraduate Master's

Study Method

Full time

Award Title

MSc

Course Length

12 months

Faculty

Faculty of Engineering

Department

Mechanical and Aerospace Engineering

Entry Requirements

A first or upper second-class Honours degree in engineering or physical sciences, or equivalent professional qualification. A

lower class of degree may be considered with relevant work experience..

SCQF Level

11
