

## Civil Engineering

University of Glasgow

### Venues

Gilmorehill Campus

### Content

Those who study the Masters in Civil Engineering will gain advanced knowledge and associated analytical and problem-solving skills in a range of key sub-disciplines of Civil Engineering, and develop the ability to apply this knowledge in engineering design and to the solution of open-ended and multi-disciplinary problems. The MSc in Civil Engineering is intended for students with a first degree in Civil Engineering or a closely related discipline who wish to extend their expertise to a higher level in preparation for a professional career.

### Start Date

September, January

### Qualification

Postgraduate Master's

### Study Method

Full time

### Award Title

MSc

### Course Length

12 months

### Faculty

College of Science and Engineering

### Department

James Watt School of Engineering

### Entry Requirements

2:1 equivalent degree (GPA 3.0) in any Engineering discipline or Physical Sciences/Maths degree that contains the core modules: maths, soil mechanics, structural mechanics.

Applicants with a high 2:2 equivalent degree classification but 2:1 standard marks in core modules may be considered for entry.

## SCQF Level

11
