

Mathematics Unit 1: Expressions and Functions (Higher Unit)

North East Scotland College

Venues

Off campus

Content

This Unit forms part of the Higher Mathematics course but can be studied as a stand alone Unit. The Higher Mathematics course enables learners to develop skills in selecting and applying mathematical techniques in a variety of mathematical situations.

These skills will enable progression to further learning and to employment. Learners will experience in-depth study of the ways in which mathematics describes our world, and become skilled in interpreting, analysing, communicating and managing information in mathematical form.

The general aim of this Unit is to develop knowledge and skills that involve the manipulation of expressions, the use of vectors and the study of mathematical functions. The Outcomes cover aspects of algebra, geometry and trigonometry, and also skills in mathematical reasoning and modelling.

Start Date

Flexible

Qualification

Other

Study Method

Distance and Flexible learning

Course Length

2 months

Department

Highers, National Qualifications and Units

Entry Requirements

National 5 Mathematics, relevant component units or an equivalent course is required.

SCQF Level

6
