

Carbon Innovation (PgCert)

University of Edinburgh

Venues

Off Campus

Content

Based upon the highly successful on-campus MSc Carbon Management, this online programme utilises a blend of interactive content, videos, virtual case studies and discussions to explore the economics and policy of climate change management.

The interdisciplinary nature of the programme provides a detailed understanding of the economics of climate change and a broad and integrated understanding of carbon footprinting, ecosystem valuation, energy systems and energy policy.

This programme is designed for those with a passion for tackling climate change and who require the flexibility that online learning provides.

Start Date

September

Qualification

Postgraduate Certificate

Study Method

Distance and Flexible learning

Course Length

1 year

Faculty

College of Science and Engineering

Department

Geosciences

Entry Requirements

A UK 2:1 degree, or its international equivalent, in any subject. Professional experience will also be taken into account.

SCQF Level

11

Address

Old College
South Bridge
Edinburgh
City of Edinburgh
EH8 9YL
