

## Family Medicine

University of Edinburgh

### Venues

Off Campus

### Content

The Master of Family Medicine (MFM) is an innovative on-line Masters degree. To help you achieve your potential you will be equipped you with the knowledge, skills and attitudes required to deliver quality clinical care in family practice. You will also learn about family medicine as an academic specialty and develop specific academic skills. The aspiration is to empower learners to promote the development of compassionate and values-based family medicine that has a real impact on the individuals and communities that we serve.

Through the provision of excellence in family medicine education, the MFM delivers to Global Health targets including the achievement of Universal Health Coverage (part of Sustainable Development Goal 3) and the World Health Organisation's vision for strengthening primary healthcare. To achieve the WHO vision family doctors will play a pivotal role within health systems around the world providing leadership to primary healthcare teams.

### Start Date

September

### Qualification

Postgraduate Master's

### Study Method

Distance and Flexible learning

### Award Title

MFM

### Course Length

3-6 years
