

## Health Studies

University of Dundee

### Venues

City Campus

### Content

This course is designed to offer postgraduate education to Healthcare professionals in a range of clinical environments and geographical settings. It supports both UK based and international nurses to develop personally and professionally.

It will support you to change and develop your ways of thinking, inspiring you to become an independent learner who thinks creatively to solve problems using evidence-based approaches. You will develop as a leader in a changing health care landscape, supporting you to improve health outcomes for the population you work in, reducing health inequalities and transforming lives.

You can exit after stage 1 with PgCert Health Studies.

You can exit after stage 2 with PgDip Health Studies.

### Start Date

September, January
