

Civil Engineering (Year 1)

West Lothian College

Content

This course gives you practical and personal skills to prepare you for employment in the construction industry. It is equivalent to first year university degree-level. It covers geotechnics, civil engineering contracts and project management, construction site surveying, and construction technology (substructure and structural mechanics).

The course is classroom-based with practical experience gained from workshops, field trips and site visits.

This is Year 1 of a 2 year course.
